II. Basis for Jurisdiction

Retition for Wat of Habeas Corpus present to ZB U.S.C. § 2241 to challenge unconstitutional conditions of Confinement. See, e.g. Preiser v. Rudriguez, 411 U.S. 475 (1973)

St. Prisoner Status - Pretrial Detainer

A. Clain 1:

Statement of Claim

Plaintiff is betained pretrial as a Special Administrative Measures (SPMs) imparts on administrative detention. While detained at MCC, ShMs inmates were given access to renghly half the commissary. When moved to MDC, SAMs inmates here given access to a very small amount of commissary. Then, on January 18, 2023 haden Ma'at decided the SAMs inmates were not getting twhered enough so restricted their commissary significantly. See EX. A for pre-Yielz3 commissary and EX. B for post-Yielz3 commissary the new commissary is the same used to punish inmates who are detained in disciplinary segregation. Some examples, & remarks items are: peant butter, outment, cheese toothpaster tea, etc.

This restriction violates federal regulation 218 CFR 541.31/h)(1) which requires administrative detention inmakes to have access to general population commissary, whereas b)(2) details commissary restrictions only to disciplinary segregation. This restriction also violates the live Process Clause of the Fifth Arrendment because it is imposed arbitrarily without and legithmake governmental objective. See Bell in wolfish, 44/ U.S. 520 (1979). There is no peason administrative detention inmakes

Should not have access to the full yeneral population Commissary including betteres and a tublet for reading and games.

Plaintiff filed alministrature remedies, but never received a response to his BP-B, BP-9, or BP-10; Respite requesting a BP-11, he was never provided it; accordingly, all administrative remedies have been exhausted.

B. Claim 2:

Plaintiff and all administrative segregation immates were previded access to holiday commissaries at MCC and MOC - until in December of 2022, harden Maat decibed they should not get holiday Commissary any larger; as a result Plaintiff was mable to Shap Christmas Commissary in Becember or Rumadan Commissary in April. This is similarly a violation of federal regulations and Due Process See Supra.

Plaintiff filed administrative remedies, and achally received a response to his BP-9 whereby the brander declared that Plaintiff had alloss to holiday commissary despite the clear facts to the contrary -Trust First records clearly indicate that neither Mr. Scholke nor any other SAMS inmates had access to purchase holiday winnissary. The BP-10 has not answered; and Mr. Schulk has unable to receive a BP-11; accordingly, all administrative remedies have been exhausted.

V. Requested Relief A. Claim one: Order the BOP to supply abministrative segregation inmakes both access to the complete, fell general population commissary

5. Claim two: Order the BOP to ensure administrative Segregation immates

have fill and complete access to holilay commissing as general propulation; and order the IBOP to make up the missed christmas and Ramadan holilay commissioners by prochasing and providing that commissions to Plaintiff and any others effected.

It Exhauston of Administrative Revolves

As discissed, spra, all administrative revolves were exhausted.

BP-B, 9, 10, were filed and either devised or not returned within the allusted time. The MDC refised to priville control office BPII administrative remedies, which were therefore marailable. Accordingly, all apillable administrative remedies have been exhausted.
